Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no support in claim 11 for the term "is prevented." Amending the claim to recite "where the inhibiting metastasis reduces the incidence of metastasis" will overcome this rejection, if there is support in the specification for this recitation.

In view of applicants amendment to the claims the earlier rejection under 35 USC 112, paragraph two is withdrawn.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by DRUG U.1997-39885 (Colacci et al).

Colacci discloses (abstract) that treatment with ALA reduces the invasive behaviour of malignant cells and plays a role in cancer chemoprevention.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 1614

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-17 are again rejected under 35 U.S.C. 103(a) as being unpatentable over WO 99/06040 (Berry et al) for the reasons given in the Papers of January 15, 2004 and August 31, 2004.

Applicants' argue that there is no motivation to select alpha lipoic acid (ALA) from the many antioxidants available. This is not persuasive. Berry discloses ALA, which would motivate one of ordinary skill to select it.

Applicants further argue that one would not expect that it would not be beneficial to use ALA alone. This is not persuasive, since Berry discloses the synergistic effect of the two compounds. In the absence of a showing of unexpected results, it would be obvious that ALA is useful alone to yield the recited results.
